**SEMINARS-SYMPOSIUMS-
CONVENTIONS** 3-7

California is alive with activity in parapsychology, metaphysics and other significant areas of human growth potential. Uni-Com Foundation directly supports this activity by serving as its information hub.

The major service which the Foundation now provides is UNI-COM GUIDE, a **monthly** calendar of spiritual and personal awareness activities scheduled throughout California. This popular publication allows "new age" organizations to announce in advance the dates and contents of their meetings to a large and interested audience of individuals and other organizations. The cost of publishing UNI-COM GUIDE is supported by paid advertising and by modest subscription fees of \$3/year, or \$5/two years.

In the process of gathering information for UNI-COM GUIDE, the Foundation becomes aware of leaders who are available for service in counseling, speaking, teaching, research, seminars and retreats. Frequently this awareness, discreetly coupled to organization needs for such talent, results in effective new relationships. Uni-Com Foundation does not solicit funds for this and other informal services but is supported by those who see the value of such work and voluntarily wish to become a sustaining part of it.

Uni-Com Foundation is a non-profit and non-denominational corporation which lovingly encourages the achievement of a loving society. Uni-Com also offers two additional services of a mail order book catalogue and a small monthly pamphlet of articles by Metaphysical teachers.

THE EDITOR

Are you a phenomenon seeker? Or are you a seeker after Spiritual Truth like most of us? Let's define the two! The dictionary says phenomenon is "an exceptional or abnormal person, thing, or occurrence; any fact or event of scientific interest, description and explanation.". - - - - Spiritual, "of the moral feelings or states of the soul". - - - - Truth, "a fixed law in agreement with the will or the nature of God".

Those who condemn others for being phenomenon seekers; I wonder if they really know what they are talking about? We find that most people interested in the lectures and classes listed in the Guide are seekers after spiritual enlightenment and self development, not that of observing someone perform feats. Are they to be considered to be phenomenon seekers? We think not! But what of those who put some individuals on pedestals and worship them? Classify them as "Gods"? That theirs is the only truth! That no other teacher ever will exist to bring forth the truth! Aren't they being a little narrow minded?

In this expanding world of the Aquarian Age, many, yes many, teachers and channels are coming forth. Each equally as good as those of the past. This is not to say that the teachers of the past were not great or correct. They opened the field for us, gave us the ground upon which to expand, the basic fundamentals from which to learn. But do not condemn the new teachers, they are bringing forth material especially geared to this new age. The material they present is not new, as nothing on this earth is new, but it is wrapped in a new understanding, a new age of enlightenment. These "truths" are for our self-development, our growth. Do not condemn those who follow a different path than yours, we each came into this life time to learn at our own pace, our own level, and in our own philosophy! Those who spend a life time judging others, will in their turn be judged! We should each of us remember this when we seek to spread the word of what another is doing or studying.

In this; the Aquarian Age, the age of Spiritual advancement, we need good teachers. Teachers who are of flesh that we can talk to and listen to, and learn from. If you looked at the above descriptions you could consider most every thing and every body, past or present as one seeking phenomenon!

Patricia

I would like to repeat again the words of the song "Let There Be Peace". Instead of reading, please do it!

"Let there be peace on earth, And let it begin with me;
Let there be peace on earth, The peace that was meant to be.
With God as our Father, Brothers all are we.
Let me walk with my brother, In perfect harmony.
Let peace begin with me, Let this be the moment now.
With every step I take, Let this be my solemn vow:
To take each moment and live each moment in peace eternally.
Let there be peace on earth, And let it begin with me!

They practiced a common system
and moved the known world!

The secret science of the masters has been
re-discovered and offers you self-development
far greater than thought possible centuries ago.

JESUS

Jesus of Nazareth probably the world's first nuclear scientist, practiced a secret system. Just what this secret science was has escaped the world's best thinkers for nearly 2,000 years. Now it has been rediscovered in its entirety. That this secret science was known to other world teachers has now been proven.

BUDDHA

Guatama Buddha was a prince and lord of ancient India. Yet he wanted something better out of life. His search for the secrets of life is known to all those who have read of his fascinating quest. Today thousands of students apply techniques of meditation and believe they have found the all of Buddhism. This is not so.

VIRACocha

Viracocha of Peru walked the Americas teaching the lost arts of self realization. He assumed many different guises and was known under various names. He taught man how to develop his latent potential, how to regenerate himself and live to great ages. With the coming of the Spaniards the secrets of his teachings perished.

"The Absolute Truth is of course, imageless, but the Power of Truth or God-in-action, is a vibratory force pervading everywhere. Its primal manifestations come in the form of Light and Sound, and it is for the Master Saint to give an experience thereof by helping each soul to rise above the sensory plane,... in this age, the most natural form of Yoga is the Surat Shabd Yoga or the Yoga of the Sound Current. It teaches how the Inner Self can be extricated from the clutches of the outer self,..."

THE ART OF THE COSMOS

A School & A Technique

The Art of The Cosmos, is a beautiful experience of blending colors and images that touch a deep spiritual awakening within each student. Work is done with the hands, no brush or pallet, using techniques that have been developed over many years. When the hand comes in contact with color a very strange and wonderful feeling is in store for the student . . . Classes are usually conducted with a background of music. The student has the opportunity of learning self awareness, creativity and spiritual advancement through these techniques!

Personally conducted classes .
